

# ZOE BLIGHTON

## Front-End Web Developer

---

### PERSONAL PROFILE

Front-End Web Developer with experience building and deploying responsive web applications using HTML, CSS, JavaScript, and React. I have delivered multiple React projects, including API-driven applications and live websites for real clients, and I am currently designing and developing the Triple Moon client project from concept to deployment. I bring strong problem-solving and communication skills from a background in leadership and education, with a clear focus on accessibility, usability, and clean, maintainable code.

College  
2013-2015  
3 A-Levels

### WORK EXPERIENCE

#### FREELANCE WEB DEVELOPER

*client project / December 2025 - Current*

- Designed and developed a responsive front-end for the Triple Moon client project using modern HTML, CSS, JavaScript, and React.
- Translated client requirements into clean, user-focused UI components with a strong emphasis on accessibility and usability.
- Managed the project from concept through development, applying best practices in layout, performance, and maintainable code.

#### JUNIOR FRONT-END WEB DEVELOPER

*SheCodes / December 2024 - December 2025*

- Designed, built, and deployed multiple front-end personal projects using HTML, CSS, JavaScript, and React.
- Applied modern development practices including API integration, reusable components, and responsive, accessible layouts.
- Strengthened problem-solving and debugging skills through independently scoped projects and iterative improvement.

#### ASSISTANT MANAGER / MONTESSORI TEACHER

*Orchard Cottage Montessori Nursery School / September 2017 - July 2025*

- Managed complex, fast-paced environments by prioritising tasks, adapting to changing needs, and maintaining consistent outcomes
  - Collaborated with teams and stakeholders (parents, staff, external professionals), strengthening clear communication, documentation, and problem-solving skills
  - Took ownership of responsibility and decision-making as Assistant Manager, developing leadership, organisation, and attention to detail directly transferable to software development
-
